

Sugarplum Fairy, Visible Karma

When you light the morning sun
You can look all over town
And you won't see me
No you won't see me

You can call my loving ones
Doesn't matter how fast you run
'Cause you can't catch me
No you can't catch me

Get a grip of yourself my lonely
Get a grip of your life or change it
Get a system to catch me you'll see
You're in the shadow and I am sunny now

You can look me in the eyes
You can touch my inner light
But you won't feel me
No you won't feel me

You can say your warmest words
You can sing like mocking birds
But you won't reach me
No you won't reach me

Get a grip of yourself my lonely
Get a grip of your life or change it
Get a system to catch me you'll see
You're in the shadow and I am sunny now

You can shine your morning sun
Doesn't matter how fast you run
But you won't feel me
No you won't reach me

Get a grip of yourself my lonely
Get a grip of your life or change it
Get a system to catch me you'll see
You're in the shadow and I am sunny now
