

# Sugarplum Fairy, Your Eyes

I am what you find  
Closely to your window  
Honest state of mind  
Never stop this feeling  
But I never realized before  
And never did I crawl  
And I never spoke to God at all  
I patiently was waiting for sunshine  
Stuck in a train sleeping alone  
Oh and heaven seems so small  
Dreaming of you right out of grace  
And this feeling still the same  
It is nothing compared to your eyes  
Been up here all night  
I can't hear no function  
It's history and rhymes  
What I'm really saying  
But I never realized before  
And never did I crawl  
And I never spoke to God at all  
I patiently was waiting for sunshine  
Stuck in a train sleeping alone  
Oh and heaven seems so small  
Dreaming of you right out of grace  
And this feeling still the same  
It is nothing compared to your eyes  
Get your thing out my head blow you  
Life in a bag get you kicks from your pain  
Here's your card insane  
Hit me up so high beat me up so blind  
Drink your spanish fly and it's fulfilled  
Stuck in a train sleeping alone  
Oh and heaven seems so small  
Dreaming of you right out of grace  
And this feeling still the same  
It is nothing compared to your eyes
