

Suicidal Romance, Star

In the dark Your face appears
You come to me
I feel your burning skin
Your pure desire I can't refuse
You want to be with me
And in this night the moon so dark
We want to be alone
Your naked body is full of lust
You want to fly tonight

So close Your eyes and fall asleep with me tonight
In this darkest night
Reality is not a place for us to hide our light
Our brightest light
And when we are alone with You
I wish to be a star for You
To shine the way of our game
To You my love my darkest love
