

Suicidal Tendencies, Pledge Your Alegiance

ST ST ST ST ST ST ST ST ST

I never said I don't like religion - I just don't like TV

You say you got a bad attitude - around you that comes naturally

You say I need more compassion - I can't forgive, I just can't forget

You say control my temper - but when I feel like shit, I feel like shit

Chorus:

Cause I was born to be - ST

And I'll always be - ST

Don't get down on me - ST

Cause I'm down OG - ST

Not afraid to die - ST

Just you promise me - ST

You got to carry on - ST

You gotta carry on - ST

Why can't I ask my questions if what you say is true

Am I supposed to beleave everything - or just everything said by you?

And how can you call me stupid - when you don't understand what I say

And how you can call me evil - have you spoken to God today - and what did he say?

Chorus

As long as your heart beats - pledge your allegiance

You can call me ugly - but I still dress the way I choose

How you gonna judge me - you've never taken a walk in my shoes

Why don't you ever trust me when I'm smiling - is it a sin to have fun?

And why should I repent when there's nothing wrong with anything that I have done

Chorus

Pledge your allegiance.....
