Suicide Commando, Jesus Wept

Living like sinners We don't even care Loosing religion We're heathen

Slowly destroying our own precious world Slowly destroying our mind

God, where are you Don't leave me alone God, where did we go wrong God, where are you I don't want to stay God, please guide me the way

Killing our children We don't give a damn Killing our Jesus We're blinded

Slowly destroying our own precious world Slowly destroying our mind

God, where are you Don't leave me alone God, where did we go wrong God, where are you I don't want to stay God, please guide me the way
