

Suicide Silence, In A Photograph

Screaming your name into the sky
Into the sky
Screaming your name into the sky
Were you just going to sit back
And watch him die? [2x]
He screamed your name straight to the sky
He screamed your name everyday
Rescue him from the fall
Rescue him, take his hand [2x]
Take his hand [2x]
I remember the day and
every sound and smell of it [2x]
I remember the day
Just like it was in a photograph [2x]
Where nothing ever changes
and always stays the same
Where nothing ever changes
The memory stands still
You let him fall [4x]
Screaming your name into the sky
So I tried
And I screamed [2x]
Lord can you hear me
And I was left without
reply so I walked away
You let him fall [3x]
You let him...
Without your response
I blame you
For this loss of love and life
