

Sum 41, My Direction (live)

Perfection is my direction
Even if that's all I had
It's not like I need no correction
I just know that life's not so bad

Picture this everyday kids that just can't find a way
Stuck in disarray can't find hope for better days
It's the degeneration of childhood frustration
In the last 30 years
Teenage suicide has increased 300% in North America;
It is the second major cause of death in Canada

Perfection is my direction
Even if that's all I had
It's not like I need no correction
I just know that life's not so bad

When will all my problems disappear
Am I just going crazy from the fear
Oh my oh my I'm going far past the brink
The pressure's like a weight
And I still can't think straight

Perfection is my direction
Even if that's all I had
It's not like I need no correction
I just know that life's not so bad

I've met my destinations
So what's left to complain about
With all these aggravations
Building till the seams fall out
I'm running my mouth dry
With every time I lie
Don't tell me without a doubt
This dumbfound luck has all run out
Don't tell me without a doubt
This dumbfound luck has all run out

Perfection is my direction
Even if that's all I had
It's not like I need no correction
I just know that life's not so bac
