

Sum Less Than, The Jester

A jester of sorts
You stand holding your court
Over minions of capital hill
Sum In a bath full of blood
All alone, standing still
Under God, you can fire at will

And when (when!)
The devil's angels come
Take your life and lead you
The To the flames beneath
Your headstone reads now (hey!)
Here lies the dead who was,
Jester Hang by his Head beneath us,
They're laying in their graves,
Songtexte Damnation free for all!

A prodigal son
Can't undo what he's done
Songtext A figure head of capital crime
With a light shining down
Lyrics As you fall to your knees
To repent would be nothing but lies
