

# Summer Matthews, Little Miss Perfect

You handle me like glass  
This side up, first class  
You always put me on a pedestal  
Scared that I might break  
Delicate's my name  
Are you sure of what you're looking for

## Bridge 1

If I seem bittersweet  
I don't mean to be cruel  
But the devil in me  
Wants to break all your rules

## Chorus

If you're looking for little miss perfect  
You won't find her in me  
Not in my DNA  
If you're looking for little miss perfect  
You might find that you'll be  
Part of my history

Anything I ask's mine with just one glance  
I wish you'd do something spontaneous  
Everywhere I go, you feel the need to know  
Is it a crime to be mysterious

## Bridge 2

If I seem bittersweet  
I don't mean to be cruel  
But this devil in me's  
Gonna break all your rules

## Chorus

If you're looking for little miss perfect  
You won't find her in me  
Not in my DNA  
If you're looking for little miss perfect  
You might find that you'll be  
Part of my history

## Middle 8

I wear the right clothes  
And I've got the right hair  
Always on time  
But you don't seem to be aware  
There's so much more to me  
Than superficiality  
And I'm not perfect, I don't wanna be

Repeat chorus
