

Sunblock, Baby Baby

I wanna roll inside your soul
To know the things that you need and feel
Everytime that you're by my side
I can't get serious, because you got me
Cold chill down my spine
No, no more tears, show me a smile
Cold chill down my spine
No, no more tears, give me a smile
Baby baby
Why can't we just stay together
Yeah yeah yeah
Baby baby
Why can't we just stay forever
Yeah yeah yeah
Deep inside I know you need it
Just let it out and get it on, you gotta feel it
Every time that you're by my side
Just think it over, I'll make you glad
Cold chill down my spine
No, no more tears, show me a smile
Cold chill down my spine
No, no more tears, give me a smile
Baby baby
Why can't we just stay together
Yeah yeah yeah
Baby baby
Why can't we just stay forever
Yeah yeah yeah
Baby baby
Why can't we just stay together
Yeah yeah yeah
Baby baby
Why can't we just stay forever
Yeah yeah yeah
Baby, baby, baby...
Baby (baby, baby)
Baby
Baby, baby, baby, baby...
Ohh yeah
Baby baby
Why can't we just stay together
Yeah yeah yeah
Baby baby
Why can't we just stay forever
Yeah yeah yeah
Baby baby
Why can't we just stay together
Yeah yeah yeah
Baby baby
Why can't we just stay forever
Yeah yeah yeah
