

Sundown, Prey

[Get it on]

The neon's burning bright
My angel just comes out at night

[Get it on]

Let's get out of here
The ignition's kicking into gear

Your body's bound for glory
Watch you slither on the floor
My favourite bedtime story
Drug me up and gimme more

[Get it on]

Just another show
My mind's got someplace else to go

[Get it on]

Multi-coloured pill
That thing is such a wicked thrill
