

# Sundown, Silencer

This is the moment baby  
The one you always waited for  
The profit margin's narrow  
When your soul kicks off a full blown war  
Step on up right here and have a go  
You won't cut it - I always said so  
It's getting late - Time to feel the pain  
Closing down now - Please come again

Your life's a fucking failure  
Is this all you've got to show  
A million sob-soaked stories  
Spare me - I don't need to know  
I really should feel sorry  
But I just can't relate  
Won't sink down to your level  
And I couldn't compensate

Emotional malfunction  
Nothing quite easy to admit  
Your heartburn soldered radar  
Those shortcut wires won't transmit  
Why the fuck you try to steal my medicine  
Can't you see what state I'm in  
Are we finished here - well more or less  
Walking out now enjoy the mess
