

Sunfreakz, Counting Down The Days

Been around, now I found, I was walking on the wrong track yeah
Took my time, I was fine, I was looking for you
Lost my way, for the day, got my ticket, now I'm right back
Here to stay, it's okay, now I'm walking with you

Counting down the days 'till I will find you there
I don't care as long as I, I get there with you
Counting down the days to take the chance, the dare
I don't care as long as I, I get there with you

When you're near I can feel a connecting and I can't let go
Lost control, took a whole, can it really be true
Run away to a place where nobody else would never (ever) go
Here to say it's okay, now I'm walking with you

Counting down the days 'till I will find you there
I don't care as long as I, I get there with you
Counting down the days to take the chance, the dare
I don't care as long as I, I get there with you

Taking my time, looking, searching
Now I'm walking with you, yeah yeah...

Counting down the days 'till I will find you there
I don't care as long as I, I get there with you
Counting down the days to take the chance, the dare
I don't care as long as I, I get there with you
