

Sunk Loto, Cured

Last night I talked to you
A waste of our time
But now I know
I'm not welcome anymore

You killed my soul with love
And cured the cancer
I can't find you

Since you're so young and dumb
And so you know the answers
I've had enough of you
So save the letters

Don't come back, don't come back
Cos I've known you before
