

Sunk Loto, Fall Apart

Because I'm dying on my own out here (but it doesn't even matter)
Because I don't wanna die alone out here (but it doesn't even matter)
you see i'm nothing but a broken man
but it doesn't even matter anymore

Why do we all fall apart
I guess it doesn't even matter
How did we fall down so far
I guess it doesn't even matter

Because you're dying on your own out here (but it doesn't even matter)
Because you don't wanna die alone out here (but it doesn't even matter)
You see you're nothing but a lonely man
that doesn't even care anymore

Why do we all fall apart
I guess it doesn't even matter
How did we fall down so far
I guess it doesn't even matter anymore

Take me somewhere peaceful
I can live in peace
Take me somewhere peaceful
I can live in peace

Why do we all fall apart
I guess it doesn't even matter
Why do we fall down so far
I guess it doesn't even matter anymore
