

Sunna, Power Struggle

I will be here when you are gone,
So I have the right to a power gorge,
And I will be good at making bad,
And I'll light the way for the fucking mad,
I will defeat what I'm heading for,
And I will be here for evermore,
And I am the way of your empty shell,
I want more than I am,

Cause I was made to fly,
I was made to fly,
And you were made to die,
But I was made to fly.

I will survive cause I want more,
And I will create a bigger war,
Then I will rule over and give you hell,
And then you will do as I command,
Cause I will be here when you are gone,
Yeah I'll still be here when you are gone,
I'll fill you with fear of a holy sun,
I want all that I am,

Cause I was made to fly,
I was made to fly,
And you were made to die,
And I was made to fly.

I will defeat you.

Manipulate, interrogate, compete all you like,
And dominate with forceful hate,
Cause You know I will defeat you.

You were made to fight,
Yeh you were made to fight,
I was made to fly,
But you were meant to die.

Cause I was made to fly,
I was made to fly,
And you were made to fly,
And I was made to fly.
