SunSay, Keep On

I don't care bout what u wearing No better time 4 sharing than now inside we are the same

we don't need 2 have more than 1 aim

through traps and cages, disparity of ages

I'm not comparing I don't care what u wearing!

we are the soul keepers

take off your fluffy slippers and walk on the broken glass of life

no more honey 4 the bees in the hive

Through curses and blessings

between parties and lessons

I'm hearing, I'm seeing!

I am a human being!

Keep on living!

Bypassing bypassing guess now guess who's guessing!

No better place or season to feel the main reason

No thoughts no wishes disgusting or delicious

I'm not competing I don't care what u eating!

Every minute is a gift every minute is gold

Life as fast as food but I'm not hungry at all

U can take it as it comes or jump off the wall

Every minute is a gift every minute is gold!

If u know what I'm about 4get you're thrills

It's just U and me

Through the time that kills

We don't need 2 be tied up or 2 be adrift

Every minute is gold, every minute is a gift

Keep on living!

There is no finish so forget about the start

We are together we are apart
