

Super Deluxe, Love Her Madly

I love her madly, all the little things she'd say
I want her badly, though there's someone in my way
Well, I don't really know her
But I'd like just to show her
I lost her lately, panic when she's not around
She hesitating, kicks me when I'm on the ground
Well, I don't really know her (she says I don't know her)
But I'd like just to show her I don't need to know
everything that's on your mind I will find her,
if I just could find the time I love her madly,
all the little things she'd say I want her badly,
though there's someone in my way
Well, I don't really know her (she says I don't know her)
But I'd like just to show her
I don't need to know everything
that's on your mind I will find her,
if I just could find the time
