

# Superbus, Helping Hand

Run, run, run away, you're afraid of me you say  
That I should go to see a doctor  
You found found found out that I was crazy  
And now you're so affraid of me  
But you gotta understand that I need a helping hand  
Somebody who take cares of me

You gotta understand that I need a helping hand  
Somebody who take cares of me

I'm jump', jump', jump', jumping everywhere  
I'm jump', jump', jump', jumping in the air  
'Cuz I know that I'm crazy, I know that I'm lazy  
I really know everything about me  
I need a doctor, I need a sister, I need somebody  
Who can take care of me  
But you gotta understand that I need a helping hand  
Somebody who take cares of me

You gotta understand that I need a helping hand  
Somebody who take cares of me

Get up, get up, take my hand,  
Bring me back right to the band  
Stand up, stand up, take my hand,  
Bring me back right to the band  
Moving, you make me dance and you make me sing loud,  
Fly high, leave the floor, I'm getting higher

You gotta understand that I need a helping hand  
Somebody who take cares of me
