

Superbutt, Flipover

Shake it up sister, make this a good one, will ya
Kiss life, before it kills ya
Speak no truth just give me something that I like
Grab onta my good will and hold on tight

Jump sister, get up and jump now
Before you would have to pay
Just do a flip for me and I'll let you get away

Shake it sister, make it good, will ya
Please life, before it kills ya
Throw your feet up show me something that I like
Get on your knees and stay upright

Jump sister, over the fence
Before your bill is out, and you'd have to pay
Just do a flip for me and I'll let you get away

Do a flip for me and I'll let you get away
Show me something that I like
Give me something that I like!

Jump sister, get up and jump now
Before you would have to pay
Just do a flip for me and I'll let you get away
