

# Superchick, Super Trouper

Chorus

You were meant to live large  
C'mon take charge  
Let's go light the world up  
Let's not wait until the end  
To be the things we wish we'd been  
You were meant to live life  
C'mon let's fly  
You're a super trooper spotlight  
We're gonna jump on the count of three  
Here it comes now  
One two three jump

V1

If you were a country you'd be Switzerland  
You never take a stand your policy is  
Never to offend  
And if you were a gambler you would always win  
You'd only bet on the horses after they had  
Already come in  
And I'm sorry that I'm getting on your case  
But true friends they stab you in the face  
(Chorus)

V2

If you were in a movie you'd be thug number 5  
Cuz you don't try out for a starring role  
But your name belongs in lights  
If you got a GI Joe you'd never open up the box  
Safe inside its plastic prison  
Waiting for the day it rots  
And I'm sorry that I'm getting on your case  
But true friends they stab you in the face  
(Chorus)
