

Superchunk, Drool Collection

i could feel my arms this morning
a little sore - thats just a warning
and i've been getting (?malafoes?)
and it's foolishness i know
but after last night's jibberish i should really sing you something

and it was just one of my favorite selections
from my drool collection
yeah it was just one of my favorite selections
from my drool collection

this morning i could feel my feet
i was surprised 'cuz i had blisters
from running all night in my dreams

running from some draft
i was relieved to find that i did not accidentally kill her standing back

one of my favorite selections
from my drool collection
yeah it was just one of my favorite selections
from my drool collection
