

# Superdrag, Bankrupt Vibration

I couldn't help turning on  
But I never tuned in  
Now I want to drop out  
You'll swallow any little pill  
Taking everything in  
Sucking every nerve out  
And your alternative station  
Is such a bankrupt vibration  
Counting on the confusion  
Of an alternative nation  
All the terminal patients  
Demand a strong medication  
Getting on with the big show  
We celebrate what you don't know  
Jumping out of the window  
Jumping out of the window  
Jumping out of the window  
I know the name of the game  
Any rock & roll star is a pitiful shame  
I can't decide where to run  
Tell me what have I done  
Tell me what have I done  
And your alternative station  
Is such a bankrupt vibration  
Counting on the confusion  
Of an alternative nation  
All the terminal patients  
Demand a strong medication  
Getting on with the big show  
We celebrate what you don't know  
Jumping out of the window  
Jumping out of the window  
Jumping out of the window
