

Superdrag, Hellbent

I was hellbent to burn up the world
With a beautiful girl I created
Then my god said, "take a powerful pill
like a fool on the hill" and I waited
Everybody wants to hang around
Everybody wants to bring me down
This simple prayer I say without a sound
Get me off the ground
Uh-huh
Man I lost it
I was losing my mind
I was dying to find a salvation
But I'm changing
I am making her mine and I'm trying to be a sensation
Everybody wants to hang around
Everybody wants to bring me down
This simple prayer I say without a sound
Get me off the ground
Uh-huh Yeah
