

# Superdrag, In the Valley of Dying Stars (song)

keeping quiet and meaningless.  
in the cage that you gave me.  
i am euthanizing the gloom.  
in whose image you made me.

in this valley of dying stars.  
you can make it feel crazy.  
you can black out most of the view  
'til you make it amazing.

can you hear the sound  
of hours blowing away?  
if you care about it, anyway.  
how can i take you out of the way?  
bullets break you a lobotomy.  
bullets break you a lobotomy. hey.

keeping still in the emptiness.  
where you break and betray me.  
i am euthanizing the gloom.  
in whose image you made me.

in this valley of dying stars.  
you can make it feel crazy.  
i am black and beholden to you  
'til you make it amazing.

can you hear the sound of hours  
blowing away?  
if you care about it, anyway.  
how can i take you out of the way?  
bullets break you a lobotomy.  
bullets break you a lobotomy. hey.

can you hear the sound of hours blowing away?  
if you care about it, anyway.  
how can i take you out of the way?  
bullets break you a lobotomy.  
bullets break you a lobotomy.  
hey. hey. hey
