

# Superdrag, Take Your Spectre Away

look me straight in the eye  
crosses hanging too high  
celebrating we die  
too much pressure  
you disaster  
too much precious

take your spectre away  
overcasting today  
you have nothing to say  
too much pressure  
you disaster  
too much precious  
you disaster  
too much precious  
you disaster  
too much pressure
