

# Superdrag, Whitey's Theme

there's not an answer. expecting nothing impromptu  
I was the cancer - but something cures me when you do me  
and if you don't know by now, I'm never gonna show you how  
and if you don't know by now, I'm never gonna show you how  
or let you out of me  
I like the places, the way you're lacing them with me  
I dig the spaces, cause there's a grace there I can see  
and if you don't know by now.....
