

Supergarage, Second Try

We're happening overnight
We've put it in overdrive
Cool chemical, mass mythical

When our lessons are all learned
When we get what we deserve
We will make that sweet return
And do it right, on the 2nd try

Two taken by full surprise

Fools living in paradise
Cool spiritual, mass miracle
On the drive I got a little lost
Couldn't see past the pouring rain
Sun came up lifted the fog
And now I finally picked a lane
So do you wanna come along
And it feels just like the first time
On the 2nd try
