

Supergroove, Scorpio Girls

Ooh, ooh, ooh what am I supposed to do
She seemed a nice girl but she is one too
What's going on? I can't understand it
Something went wrong - I'm a starsign magnet
I try to hide it but they just keep coming
Bad bitching babes getting my guitar strumming
Every single time I'm getting sucked in
Those Scorpio girls always seem to win

Scorpiorpiorpio Scorpio girls
Scorpiorpiorpios rocking my world
Scorpiorpiorpios every time for the
Scorpio girls I'm a hungry enzyme

Thrice bitten thrice shy but I'm every time a sucker
See a Scorpio
She's seductive coz she's cool like a dipper
You get hot like a rosie and you're actin like a gripper
Better chill out like monkey in the tree
Because she will take your fins and throw you back in the sea
Ain't a love song but I just got to sing it
Scorpio girl, sting it baby sting it

Scorpiorpiorpio Scorpio girls
Scorpiorpiorpios rocking my world
Scorpiorpiorpios every time for the
Scorpio girls I'm a hungry enzyme

They're bad, they're glad they're bad
Those gals I had, they made me sad so mad
Acting like a fool, crazy bout them but they're cool, cool, cool
Spunky like a spunka, she's got a lot of spunk
Think you want some of that Scorpio funk
I do too, what am I supposed to do
She seemed a nice girl but she is one too
