## Superheist, Pulse

Burning ends in the situation Miss communication leads to complication Born, torn How do I feel huh My redemption's the best intentions

I'm not degrading, anticipating And why this guilt you hold

Cause I'm not here to be your saviour No favours Trust me, I'm not here to taste your burning soul

I'm not invading or self restraining I hope I run things right

Can you scream like I do Can you smell fear I do Can you break from my views Can you feel my pulse

Pulse (Pulse) Pulse (Pulse) Pulse (Pulse)

I'm not invading or self restraining I hope I run things right

Cause I'm not here to be your saviour No favours Trust me, I'm not here to taste your burning soul

I'm not invading or self restraining I hope I run things right

Can you scream like I do Can you smell fear I do Can you break from my views Can you feel my pulse

Pulse (Pulse) Pulse (Pulse) Pulse (Pulse)

Calm down relax

Pulse Pulse Pulse Pulse Pulse

You can't stand not to feel my Pulse You can't stand not to feel my Pulse You can't stand not to feel my Pulse You can't stand not to feel my Pulse
