

Superheist, Slide

You fuelled my innocence then common sense took precedence
Falling free from you in a cavity you grew i did not see where i was bleeding
Anaemic has no grace can't you see i'm sliding, see i'm sliding

I've got a fix on you, never come to bloom
I cut free myself i am a jealous fiend
Will I ever walk on water how long till the past is gone
Will I ever walk in your shoes tell me its refused

You changed uncompromised then sanitized your image right
Choking on your taste the signs you gave me

I've got a fix on you, never come to bloom
I cut free myself i am a jealous fiend
Will I ever walk on water how long till the past is gone
Will I ever walk in your shoes tell me its the truth
Will I ever walk on water how long till the past is gone
Will I ever walk in your shoes tell me its refused

how long till the past is gone (its refused)
how long till the past is gone
how long till the past is gone (its refused)
how long till the past is gone.
