

Superheist, Step Back

Strap up strap down I really hope my generation doesn't fall down
I've seen my way in therapy
I hope I fade before I age
It's so contagious don't you say

Cos when I come to face tomorrow
I hope I needed it yesterday
Then I'll breathe in your life
Wrap it up and break away

Stepback stepdown step around my, my face it bleeds like a ghost
As I walk back through history the moment fades
pretty stains
It's so contagious don't you say

Cos when I come to face tomorrow
I hope I needed it yesterday
Then I'll breathe in your life
Wrap it up and break away
Cos when I come to face tomorrow
I hope I needed it yesterday
Then I'll breathe in your life
Wrap it up and break away

I'm so depleted

Cos when I come to face tomorrow
I hope I needed it yesterday
Then I'll breathe in your life
Wrap it up and break away
Cos when I come to face tomorrow
I hope I needed it yesterday
Then I'll breathe in your life
Wrap it up and break away

I'm so depleted
Rain dogged the seasons
My golden dreams sold.
