

Superior, Judgement Day

There's no way back, I'm going in.
Cold sweat running down my skin

Never felt like this before
But I am right, I have to kill the core.

I feel the cold steel in my hand
The sight is free from where I stand

Funny just how things can change.
From god to foe, come on let's rearrange.

(Chorus)
Time to die
Now your life's gone by.
Free our souls
Give back all you stole.

(Fisher:)
My mission is fulfilled
I'll die, but be living still.

I'll live eternally

(Chorus)
Time to die
Now your life's gone by.
Free our souls
Give back all you stole.

Die for me
Sleep eternally
Free our souls
Give back all you stole.
