

# Superior, Judgement Day

There's no way back, I'm going in.  
Cold sweat running down my skin

Never felt like this before  
But I am right, I have to kill the core.

I feel the cold steel in my hand  
The sight is free from where I stand

Funny just how things can change.  
From god to foe, come on let's rearrange.

(Chorus)  
Time to die  
Now your life's gone by.  
Free our souls  
Give back all you stole.

(Fisher:)  
My mission is fulfilled  
I'll die, but be living still.

I'll live eternally

(Chorus)  
Time to die  
Now your life's gone by.  
Free our souls  
Give back all you stole.

Die for me  
Sleep eternally  
Free our souls  
Give back all you stole.
