

Superior, Propaganda - X

I came to you
To save your souls
To reveal to you-
Truth of fear and pain
And maybe tonight
Release will come to you

I am the one
Who'll take the load
Away from your bones
And I proclaim now:

(Chorus:)
Never fear your lives again
Cause I always will be
With you - now and eternally
Dont you dare to hesitate -
Well defy this world!

I am your will
So come with me
And dont waste your passion
Dont waste energy!

What brings you pain
Is unrequited love
(So) focus (your) dreams on me -
Then I will bless you!

(Chorus:)
Never fear your lives again
Cause I always will be
With you now and eternally
Dont you dare to hesitate
Well defy this world

You wont try to find the answer
When there is no single question left
Never let your soul be wounded
Dont you give no mercy to your fear

You dont hate if you dont suffer
You dont cry if you dont love no more
You wont starve 'cause hates just poisoned love
And this is all my lesson,
My compassion, my word - my doctrine
