

# Supertramp, Thing For You

Oh Lordy I got to feelin' so cold  
You know the mornin' it ain't too good for my soul I've  
been workin' in some faraway place I got to thinkin'  
'bout your sweet smilin' face I got a thing for you I'm  
gonna change all my ways I'm gonna get off the road I'm  
gonna lighten my load I got a thing for you Can you  
feel it too Think I better slow down All my wandering's  
done I found my place in the sun

Ah woman, why d'you treat me this way  
You don't believe a single word that I say  
But it's the truth now, you know I'll be home for good  
So what's with you now, I thought that you understood

I got a thing for you...

There ain't a woman alive could ever come close to you  
I won't know how to survive, so don't you fade from my  
view You say I'm putting you on and soon I'll be on my  
way Well woman you're wrong and that is all I can say  
All I can say

I got a thing for you...
