

Sure Conviction, Standing For You

(M. Liffengren/P. Liffengren)

In your house when no one's around
In secret who are you now
When the lights go down who comes out
Who are you now that it's dark
Why are you still trying to hide from me
There's nowhere you can go where I won't be
I'll send My angels to look after you
If you turn to me I will see you through
I'm standing for you, Here I am right by your side
I'm here to help you make it through the night
I love you and I want you to know
Give me your faith and I won't let you go
I'm standing for you, I'm standing for you
If you're lonely and you're hurting inside
You can follow me and I'll be your guide
If you're tired of living your life from day to day
I'll give you a reason and I'll show you a better way
I love you - I will see you through
I'm standing - here for you
I'm praying - that you'll make it through
I love you - I believe in you
