

Surfact, Soulide

Light my way
Feel the sun burn
Upon your skin
Just smile

Breath me in
Let yourself go
We came this far
Let's stay

There's a place you can hide from disorder
Drift away as your dreams come to life all along
There's a sea you can drink from the water
Bring your friends as we reach for the sky

Close your eyes
Let your soul slide
Safe from harm
You rise

There's a place you can hide from disorder
Drift away as your dreams come to life all along
There's a sea you can drink from the water
Bring your friends as we reach for the sky
