## Surfers Butthole, Friend With Weed

A friend in need is a friend indeed A friend with weed is better. A friend with breast and all the rest A friend who's dressed in leather. A friend in need is a friend indeed A friend who'll tease is better. Our thougts compressed which makes us blessed and makes for stormy weather. A friend in need is a friend indeed

My Japanese is better. And when she's pressed she will undress And then she's boxing clever. A friend in need is a friend indeed A friend who bleeds is better. My friend confessed she passed the test and we will never sever.

CHORUS Days don't end Skins crawling Pure mornin', pure mornin', pure mornin'

A friend in need is a friend indeed A friend who'll tease is better. Our thoughts conpressed which makes us blessed and makes for stormy weather. A friend in need is a friend indeed A friend who bleeds is better. My friend confessed she passed the test and we will never sever.

## CHORUS

A friend in need is a friend indeed My Japanese is better. And when she's pressed she will undress And then she's boxing clever. A friend in need is a friend indeed A friend with weed is better. A friend with breast and all the rest A friend who's dressed in leather.....
