

# Susan Raye, Don't Take Advantage Of Me

Don't make me a promise and then make me blue

Don't say you love me if it isn't true

Don't make me cry so much I can't see please don't take advantage of me

You might be the kind who'll just lead me on

Then when I need you most that's when you'll be gone

Don't tell me those sweet lies you know I believe please don't take advantage of me

[ guitar ]

Ever since I first met you I've been so in love

Day and night it's you that I'm thinking of

So before you hurt me I'm a begging you please please don't take advantage of me

Well you might be the kind...

Please don't take advantage of me
