

Susan Raye, Forever And Ever

Forever and ever I'll love you I swear by the stars up above you
There never will be any other I'll love you forever and ever

The sun may stop shining in heaven the salty old sea may run dry
The Man in the Moon may stop smiling but I'll always be by your side
Forever and ever I'll love you...

[steel]

No other arms ever will hold me no other lips ever will kiss me
No other heart ever will miss me I'll love you forever and ever
Forever and ever I'll love you...
I'll love you forever and ever
