

Susan Raye, When You Get Back From Nashville

When you get back from Nashville darling then will you settle down
Hang up your guitar forget being a star when you get back from Nashville town

Tammy is eight she'll be in upper grade and Billy's just starting to school
We tag along while you sing your songs because we believe so in you
Fortune and fame has been your first name but maybe God never meant it to be
So darling come home and sing us your songs cause you'll always be famous with me
When you get back from Nashville...
When you get back from Nashville town
