

Susan Raye, Within My Loving Arms

Come into my loving arms and forget it
Run into my loving arms you won't regret it
I will be your rock and keep you safe from harm
If you will stay with me within my loving arms

The sunshine of your life is gonna say goodbye
It hit you like a boat from the blues
Your big plans for the future have all gone up and smoked
Lost and lonely boy what will you do
Just come into my loving arms...
If you will stay with me within my loving arms
