

# Susan Tedeschi, Til I Found You

When I close my eyes  
All I see is your face  
You've got me going so crazy  
Just to feel your warm embrace  
We all need somebody  
And I never knew  
I needed somebody  
Til I found you

You make me feel so alive  
A feeling sent from above  
Like time out of mind  
When I feel your sweet love  
We all need somebody  
And I never knew  
I needed somebody  
Til I found You

A bus ain't no home  
But there's a gypsy in me  
Always searching for someone  
Or something to set me free
