

# Susanna Hoffs, Life On The Inside

I am a ghost in this world  
I am a see-through girl  
Invisible to those around me  
Blind to all I see

Life on the inside  
I know it well  
Life on the inside  
Safe in any hell

The space between me and you  
It's grown into a distant view  
I built these walls alone  
I carried every stone

Life on the inside  
I know it well  
Life on the inside  
Safe in any hell

To know what's been and what's to come  
A voice within to steady on  
The never ending state which  
Leaves me numb

I built these walls alone  
I carried every stone

Life on the inside  
I know it well  
Life on the inside  
Safe in any hell  
Life on the inside  
I know it well  
Life on the inside  
Safe in any hell  
Life on the inside  
I know it well  
Life on the inside  
Safe in any hell
