

# Susanna Hoffs, Now And Then

Started out just like any summer  
days have felt the life time love  
that's when we found each other  
and we found ourselves ooh  
now and then don't have to look back  
now and then you're right here with me  
now and then ooh my friend  
don't say good bye again  
looking in your eyes was like a mirror  
every single joy and fear  
all for one and one for all  
yeah we did it  
now and then don't have to look back  
now and then you're right here with me  
now and then ooh my friend  
don't say good bye again  
and though it was long, long ago  
saw here, here inside our love  
now and then don't have to look back  
now and then you're right here with me  
now and then yeah my friend  
don't say good bye again  
looking in your eyes was like a mirror  
every single joy and fear  
all for one and one for all  
yeah we did it  
now and then  
now and then  
now and then ooh my friend  
don't say good bye  
don't say good bye  
don't say good bye again
