

Susheela Raman, Love Trap

(Your body is a love trap)

I have fallen so deeply, so steeply in love
The harmony that you charm me with cascades from above
Bewitch me, beguile me and lead me astray
Don't you fret on me, don't you rat on me, no way

(Your body is a love trap) your body
(Your body is a love trap) is a love trap
(Your body is a love trap) and you captured me inside
(Your body is a love trap)

Tantalize me and tease me with your tender kiss
Your honey lips are impossible to resist
Enraptured and lost in your labyrinth
I can't say where I end and where you begin

(Your body is a love trap) your body
(Your body is a love trap) is a love trap
(Your body is a love trap) and you got me hypnotized
(Your body is a love trap) oh

I don't care about the others, don't care what they say
I just want to make love to you night and day

Lost inside, deep within
The pleasure palace of your warm skin
The nectar of your lips
The motion of your hips
I dream of you, night and day

(Your body is a love trap) your body
(Your body is a love trap) is a love trap
(Your body is a love trap) and you got me deep inside
(Your body is a love trap)

Your body, is a love trap (love trap)
And you got me hypnotized
You captured me inside (love trap, love trap)
You captured me (love trap, love trap)
Ahhh (love trap, love trap)
(love trap, love trap)
