

Suzi Quatro, Ive Never Been In Love

Oh
no I can't write my name
Oh - don't you know I'm so blasted.
How this revelation it is hotter
Than a matchhead
And I'm ready to go

Ready to fly away with you

And I may lose everything
But I don't give a damn if I do.

Because I've never been in love
Never been in love

Never been in love

Never been in love

I've never been in love like this before

Oh - what did I miss before.

Well
this good luck.
It's breaking out of bounds
And I just got to tell it
tell it
tell it

Oh scream and shout.
Well
you came like a hurricane
and sent me into the clouds
oh
And I haven't seen my feet for days
'Cause I'm miles above the ground.

Because I've never been in love
...

Well
who says I need a doctor
'Cause I'm a second-hand crazed.
I've been laughing so much

Oh
they want to put me away.
And I'm really gonna take these chains
Of off my life 'cause this lightening I know
I would never ever strike twice.
