

# Suziquatro, Candy Man

(Quatro/Andrews)

Standing on the edge of nowhere  
Wishing I could chase these blues away  
Got to find a reason somewhere  
Try to live my life another way

Who can make me alright  
The candy man can  
Who can please me all night  
The candy man can

Drifting, lost, and in confusion  
Like I'm rolling down a mountainside  
Got to find a new solution  
Try get off this roller coaster ride

Who can make me alright  
The candy man can  
Who can please me all night  
The candy man can

Standing on the edge of nowhere  
Wishing I could chase these blues away  
Got to find a reason somewhere  
Try to live my life another way

Who can make me alright  
The candy man can  
Who can please me all night  
The candy man can

The candy man can  
The candy man can  
The candy man can  
The candy man can  
The candy man can  
The candy man can  
Wish that I could chase these blues away  
Wish that I could chase these blues away  
Wish that I could chase these blues away  
Wish that I could chase these blues away
