

Suziquatro, Main Attraction

(Quatro/Andrews)

Dreams are hard to find
I've been searching all my life
All those cold and lonely nights
You were on my mind
Seems a hundred years ago
I walked out the door
I was blind I couldn't see
How much you meant to me

Here we stand in the morning light
Honey don't you know you're the main attraction
Hand in hand in the quiet of night
Honey don't you know you're the light of love
Baby tonight

Softly say goodbye
To the sadness in your eye
And the pain it put me through
Brought me back to you

Here we stand in the morning light
Honey don't you know you're the main attraction
Hand in hand in the quiet of night
Honey don't you know you're the light of love
Baby tonight

I wasted precious time
I left my heart behind
And found myself all alone
I had to trip and fall
I had to lose it all
To find my way back home

Here we stand in the morning light
Honey don't you know you're the main attraction
Hand in hand in the quiet of night
Honey don't you know you're the light of love
Baby tonight

Here we stand in the morning light
Honey don't you know you're the main attraction
Hand in hand in the quiet of night
Honey don't you know you're the light of love
Baby tonight

Here we stand in the morning light
Honey don't you know you're the main attraction
Hand in hand in the quiet of night
Honey don't you know you're the light of love
Baby tonight
